### Maximize Customer Lifetime Value With Buying Cycle Insights

Help your sales team reach out to customers at the right time, every time. White Cup analyzes each customer's ordering patterns to proactively notify reps when an anticipated reorder date is approaching and when customers fail to place an order during their typical buying window.

## CO WHITE CUP

#### Turn Inventory Liabilities Into Revenue Opportunities With Dying Stock Campaigns

White Cup analyzes product movement and highlights slow-moving items in a pre-built report in White Cup BI. This allows sales and marketing team members to automate email campaigns targeting customers who are most likely to

buy items based on past purchase history.

#### Streamline Sales Planning with Predictive Sales Forecasting

#### **Stop spending hours analyzing P&L statements to develop sales forecasts.** White Cup's predictive sales forecasting uses AI to analyze your historical

# sales data, accounting for seasonality and other factors.

# Work Together To Win More
